

FIRE LEADERSHIP SYMPOSIUM

Culture, Courage, and Leadership in the Modern Fire Service

February 18–20, 2026

**Presented by All American Leadership in Proud Partnership with the National Medal of Honor Museum
Arlington, Texas**

Join a select group of national fire service leaders for the inaugural **Fire Leadership Symposium**—a bold, high impact gathering focused exclusively on the challenges of culture, courage, and leadership in today's fire service. Set against the powerful backdrop of the **National Medal of Honor Museum**, this summit creates space for real conversations, meaningful connection, and reflection on the values that define the profession.

Unlike traditional conferences, the Symposium is not about technology or operations—it's about people, purpose, and leadership. **The agenda is shaped by the attendees themselves**, with session topics submitted and selected in advance, ensuring relevance and shared ownership of the experience.

Featured National Panelists

Brian Fennessy, Fire Chief, Orange County Fire Authority

Nationally recognized for his visionary, people-first leadership across major metropolitan agencies.

Dan Munsey, Fire Chief, San Bernardino County Fire Protection District

A strategic innovator known for driving data-informed decision-making and adaptive leadership.

Dustin Morrow, Fire Chief, Central Pierce Fire & Rescue

Widely respected for his operational strength, personal humility, and servant leadership approach.

Tim Sendelbach, Fire Chief, Loveland Fire Rescue Authority

Former Editor-in-Chief of *Firehouse Magazine* and *FireRescue1*, and a prominent voice in leadership development.

Check-In: Wednesday, February 18 at 3:00 PM
